December 11, 2014

Mr. Randy Teeter  
Fire Chief of New Deal  
PO Box 43  
New Deal, Texas 79350

Place Code: Lubbock: 30321

Dear Mr. Teeter:

Insurance Services Office (ISO) has submitted a recommendation concerning your community's Public Protection Classification (PPC). Currently, the Community's Public Protection Classification rating is a Class 5.

**Insurance Services Office is recommending the classification be changed to a Class 4, with an effective date of 05/01/2015.** The recommendation is based on a review of your community performed on 07/29/2014 and does include application of the Texas Addendum.

With a single class rating of 4 all class-rated properties will use **Class 4**.

Public Protection Classifications range from 1 (best) to 10 (worst).

We have reviewed the information provided and believe it is sufficient to grant approval. Enclosed is a PPC Submittal sheet indicating the point totals for the major areas associated with the review. The Insurance Services Office will be notified of our approval of their recommendation and the 05/01/2015 effective date.

If you have any questions regarding this change, I may be reached at the address indicated above or by telephone at (512) 305-7941.

*Please make sure all community officials and residents within your district are notified of the new Public Protection Classification rating for your community, and the effective date.*

Sincerely,

Jesse James Williams  
Deputy State Fire Marshal  
PPC Oversight Officer

State Fire Marshal

| Class | Percentage %   |
|-------|----------------|
| 1     | 90.00 or more  |
| 2     | 80.00 to 89.99 |
| 3     | 70.00 to 79.99 |
| 4     | 60.00 to 69.99 |
| 5     | 50.00 to 59.99 |
| 6     | 40.00 to 49.99 |
| 7     | 30.00 to 39.99 |
| 8     | 20.00 to 29.99 |
| 9     | 10.00 to 19.99 |
| 10    | 0 to 9.99      |

Divergence is a reduction in credit to reflect a difference in the relative credits for the Fire Department and Water Supply.

The difference in protection provided by the fire department and the water supply prevents the better feature from being utilized to its fullest extent. Therefore, an adjustment (divergence) is made to reflect any difference between these two features. Because of the difference in the total weights assigned to the two features, the total for the Fire Department is adjusted to make the comparison reflect the relative adequacies of the two features.

Divergence = 50% (100% water supply credit – 80% of fire department credit)
